STOVAX

Fire Your Imagination

Stove and fireplace cleaning,
maintenance and hearth **accessories**

A Warm Welcome...

Stovax is a British company dedicated to the development of high quality stoves, fireplaces, flue systems and associated accessories. Over the past 34 years, Stovax has grown to become one of Europe's largest and most respected stove and fireplace manufacturers, constantly building on a reputation for superior craftsmanship, high quality materials, designer-led aesthetics and technical innovation.

A lifetime of looking good

Stovax stoves and fireplaces have been intrinsically designed to require very little maintenance. However, when there are things to be done, we have an extensive selection of accessories that can make short work of the task.

We also have a range of products available that you may wish to consider alongside your original purchase such as our magnetic flue pipe thermometer and our carbon monoxide detector.

Perfect companions

Throughout these pages, you will discover the widest possible selection of top quality products. Whether it's log holders, fire tool sets or fire screens, our hearth accessories are designed to help you get maximum enjoyment from your fireplace or stove. Whether you have a taste of the contemporary or your décor lies more with the traditional, we have ranges to complement both your fire and your home.

Looking after you and your stove...

A Stovax woodburning or multi-fuel appliance promises years of faithful service, a promise backed up by our extended five year warranty available across all our stoves and fires when purchased from a member of our Expert Retailer Network and registered with Stovax. We take great care to ensure that our stoves and fireplaces are designed, tested and manufactured to the highest possible quality and safety standards, and we are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Our extensive design team and industry leading research and development laboratory ensure that Stovax products are at the very pinnacle of both aesthetic design and fireplace technology; offering one of the largest and most trusted ranges of environmentally friendly, high efficiency stoves and fires available anywhere in the world. We pursue a programme of continuous product improvement, with our focus always on developing heating products that contribute to a cleaner, healthier environment. In fact, Stovax is ahead of schedule in its compliance with the European Ecodesign Directive.

Whether you own a Stovax appliance or any other brand, it is important that you follow any servicing and general maintenance recommendations carefully to ensure your stove or fire continues to operate effectively and efficiently, indeed in many cases this will form part of your warranty agreement.

carbon neutral energy™

Performance with peace of mind

We would always encourage you, where possible, to consider opting for a Stovax high efficiency glass-fronted stove or fire in your home. Whether woodburning or multi-fuel, these appliances offer greatly improved efficiency through state-of-the-art air flow systems and innovative features such as cleanburn and airwash that dramatically reduce emissions, maximise the heat delivery into your room and help keep the window clean so you can always enjoy the flames to the full.

Whatever your fuel type, Stovax offer a wide range of cleaning and maintenance products that have been specifically designed to help keep your product looking and performing at its best.

How to re-rope your door seal video

A thermal rope is used to provide a heat resistant air tight seal on the appliance doors and also is often used to provide a seal for the stove or fire glass, essential to ensure your appliance works as intended and with optimum efficiency. Stovax have created a useful step by step video to help lead you through the simple maintenance task of re-roping a door seal, simply visit **www.stovax.tv** and enter the video code **V0008.**

Top tip: To allow your rope adhesive time to properly cure, leave it a minimum of 12 hours before burning your appliance.

Replacement Stove Glass

We stock replacement glass for the full range of Stovax and Gazco stoves alongside a wide selection of stove glass for other branded models. Please refer to the Stovax Accessories price list for details.

Professional XQ™
Stove & Fireplace Chimney Systems
Stovax also offer a comprehensive range of stove & fireplace chimney systems, the Stovax Professional XQ™ collection. These comprise an extensive selection of vitreous enamelled single skin flue pipe, alongside our high-quality twin wall chimney system components crafted from 304L grade stainless steel for a durable outer finish. The fully sealed twin wall components offer water tight protection for the insulation within.

With innovative decorative options, the ability to specify a colour for your system and with a host of technical advancements such as their Twist-Lock system, the Professional XQ™ range provides an attractive, versatile and reliable solution for your flue system.

Furthermore, the Professional XQ™ range carries a 10 Year Extended Warranty offering complete peace of mind.

All of the Professional XQ™ range is set out in a separate brochure, which can be downloaded from **www.stovax.com/brochures**

Exclusive Fireplace Tiles Surrounds

A bespoke collection of Porcelain and Natural Stone tiles to enhance and complement your Stovax fire.

The space in which you live is an expression of your individual style - and at the very heart of your home is the fireplace. It is a focal point that not only extends the warmest of welcomes to your family and friends, and the one around which they will gather naturally, but it also offers you the opportunity to make a design statement that marks out the room even when the fire is not lit.

Many of Stovax's contemporary fires, are designed to fit into an existing chimney breast or specially built studwork structure. Accordingly, the wall itself can be used to enhance still further the impressive appliance you have already chosen. This unique collection of 34 porcelain and natural stone tiles has been carefully selected to help you create your ultimate look. Please ask your Stovax retailer for details or download the complete brochure from **www.stovax.com.**

Traditional Slate Hearth Tiles

Stovax Huntingdon 25 in Matt Black with riven slate (4095) tiled hearth and round log basket (4052) available from Stovax.

Riven slate tiles

Slate is very much a traditional hearth material. Stovax's Riven 8˝ x 4˝ (203 x 102mm) Welsh slate tiles are hand split along the natural fault lines of the slate to produce a rustic look and reveal the natural blue, green and grey tints of the stone. Being fashioned in this way, the thickness varies from tile to tile but the average is 1/4˝ (6mm).

Polished slate tiles

Machine cut to a uniform size, with one side polished, these are a more sophisticated alternative to the Riven type. Their colour is deep blue-black, and the polished surface can provide an attractive, reflective effect. The size of these tiles is 8˝ x 4˝ x 3/8˝ (203 x 102 x 9mm).

4095 Box of 20 Riven Slate Tiles.

4257 Box of 20 Polished Slate Tiles.
